

Member Services Committee

NESA has several working committees that support to the overall health and vitality of NESA by identifying needs and opportunities that will ensure NESA remains a strong, vibrant home for our members and our community. One of those committees is the Member Services Committee, and as the name suggests, this committee focuses on member needs. The Committee provides recommendations to the NESA Board in matters relating to the development of services to meet these needs, as well as recommendations on increasing membership through recruitment and measuring member satisfaction through surveys.

Other activities that this committee is currently working on include building relationships with communities outside NESA walls (Interagency Council), supporting Intergenerational opportunities, and working with the Diversity and Inclusion Committee to build a diverse and inclusive space.

The Member Services Committee is very proud to have sponsored and promoted the current Transportation Program that provides transportation for low-income members who otherwise would not be able to attend NESA programs or social events.

If you too want to make a difference in the lives of our members, and our seniors in the larger community, you are welcome to attend one of the committee meetings to see if this is for you. Please contact Kathe, the NESA Volunteer Coordinator, for more information via email at volunteer@nesa1.ca or by calling 780-496-6969.
