TIPS FOR ONLINE  
**REGISTRATION**

## Bypassing a PayPal Account

You may notice the registration website redirects you to PayPal to securely process your payment once you've taken the steps to Check Out and pay for your activities.

**If you are a PayPal Account Holder**, sign in and use your account to finish your purchase.

**If you are not currently a PayPal Account Holder**, no problem! Just bypass needing an account by selecting "Pay with Debit or Credit Card" underneath. It will then give you the option to complete your transaction without an account.

Note – PayPal will ask if you would like to create an account after you have entered your information. You can simply uncheck that option and your transaction is complete!

A screenshot of the PayPal login page. The browser address bar shows "PayPal, Inc. [US] | https://www.paypal.com/checkoutnow?locale.x...". The page features the PayPal logo, the heading "Log in to PayPal", and two input fields for "Email address" and "Password". Below these fields is a checkbox for "Stay logged in for faster checkout" with a help icon and the text "Not recommended on shared devices." A blue "Log In" button is positioned below the checkbox. A link "Having trouble logging in?" is located below the "Log In" button. At the bottom of the page, a grey button labeled "Pay with Debit or Credit Card" is highlighted with a red rectangular border.
