our history

In 1978...the Edmonton Northgate Lions Club constructed a recreation centre on City land for senior citizens and the community. One of the busiest and most successful Senior Centres in all of Canada was born and has continued to thrive.

Today, the North Edmonton Seniors Association (NESA) operates the Centre with support from the Citizen Services Department of the City of Edmonton and the Northgate Lions Club. NESA is an independent, charitable, non-profit society providing recreational, social, educational and wellness programs and services to seniors (age 55+ years). NESA is the largest seniors organization in Edmonton, responsible for providing the most comprehensive older adult recreational and social programs.

NESA's success speaks for itself:

- Over 600 programs run annually;
- Over 200 volunteers give over 30,000 hours of their time collectively, annually.

Water Marbling Workshop: Silk Scarf and Paper

Karen Selinger

Water Marbling is a centuries-old art form where paint floats on water and special tools are used to create designs and patterns. The image is then captured by placing paper or fabric (or other porous materials)

on top of the water where it is immediately transferred and permanently affixed. This is an introduction to this mystical art form where you will learn basic water marbling techniques. You will use simple tools such as rakes, sticks, combs, and splatter brushes to create unique, one-of-a-kind designs. We will start the workshop by learning how the paints float and how the colors respond to each other. Next, we learn basic designs like freestyle, stone, peacock, and feather which we will print to paper. Lastly, you will then apply these techniques to design a 14" x 72" silk scarf. There are no special skills required, only the willingness to experiment and have fun!

NEW! Hula Hoop Fitness for Seniors Olivia Flows

This class will be a blast from the past! This senior hula hoop fitness class combines both functional training and low impact exercise; designed to improve strength and stamina, while also improving dexterity and fine motor skills, along with postural alignment and balance. This class is great for older adults as it works the whole body and can be completed from a seated or standing position, and is suitable for all fitness levels. This class will not include hooping around the waist! This fitness class is similar to barre as there will be a higher amount of reps and a lower weight; however, we will be using the hula hoops as weights! Hula hooping is good for the brain as it helps improve coordination by building neurological connections in the body, which is important in seniors as people tend to be less mobile as they age. This hour-long class will consist of a warmup, an exercise portion that focuses more on sets/ reps, a games portion and a cool down. Give this new form of fitness a go and try something new!

Yang Style Tai Chi - Level 1

Leslie Sarabin

Tai Chi is a gentle exercise that stretches, tones and relaxes the muscles. It also improves our ability to focus, concentrate and balance. The arms and legs are slowly moved through different positions with one movement connecting to the next, training the body and mind to work in coordination. Leslie teaches a traditional style of Yang Tai Chi. Leslie has been doing Tai Chi for 30 years under the instruction of Andy Wong and has been teaching her own classes since 2000. Leslie has also worked as an Occupational Therapist for 38 years in the areas of Geriatrics and Community Rehabilitation and has a passion for wellness as we age.

NEW! Mindful Investing – Avoiding Common Mistakes

Weichurn Woo, Mackie Research Financial Advisor

We have seen many people panic and make reactive decisions based on their emotions in the past decade. For the last 100 years, the markets goes through a downturn every few years. In 2015, we experienced a major downturn in Canada with the oil crash crisis. While 2016 and 2017 were good years in the stock markets, 2018 was bad due to US-China Trade War. This was followed by 2019 which was a great year. 2020 Covid Recession saw the fastest stock market crash followed by fastest recovery in history, with a fantastic 2021 the year after. 2022 was the worst year for the traditional retirement portfolio since 1937, while 2023 and so far 2024 have been strong years for stock markets. The key is to not shy away when you still need to make dividends or interest for your retirement income. Learn how to protect cashflow when the markets do stall or go negative.

Investing is emotional because it involves more than just your financial wellbeing. A bad investment decision can wipe out your retirement nest egg or your children's education fund. Investing is complex and more difficult than a lot of things we do on a regular basis. Join Wei Woo as he discusses the common mistakes behind the average investor during their retirement years and how to avoid them.

NEW! **Fit Minds**
Sharon Pandza

Did you know? 1 in 3 of us will be living with dementia or cognitive impairment as we grow older. That's a staggering statistic but it is reassuring to know that we can take positive steps, proactively, to slow cognitive decline as we age. Some cases of dementia have proven to be preventable through lifestyle changes and cognitive stimulation.

In each session, we will focus on a different aspect of brain health, and we'll take a deeper dive to understand positive steps that you can take now to keep your brain healthy. We enjoy conversations and work through cognitive stimulation exercises together that will engage all of your brain - language and music; visual and spatial orientation; memory; critical thinking; and computation.

NOTE *Our facilitators from Chartwell are trained and licensed to deliver the Fit Minds Program in the community and are sponsoring the program for the North Edmonton Seniors Association. Participants are encouraged to attend all of the sessions for maximum benefits, but we can accommodate absences. If you need to miss a class, we can send you the course notes.*

We'll review the science behind overall Brain Health. Participants will receive a takeaway article on brain health and a small gift from Chartwell.

Fit Minds Week 3 / Oct 31 - The Importance of Mental Activity & How Nutrition Impacts Brain Health

We will complete exercises across the five areas of cognition; how to engage with novel and complex ideas to maintain brain health; and review brain essential nutrients. Participants will receive some ideas to support themselves when seeking proper nutrition.

Fit Minds Week 4 / Nov 7 - A Conversation about Socialization as We Age

Participants are invited to have a conversation about the importance of social connectedness as we age and all of the challenges around that. We will wrap the session with cognition exercises.

Fit Minds Week 5 / Nov 14 - Spirituality, Mindfulness, Stress Reduction & A Discussion about Meaning and Purpose

Participants learn how prayer, meditation and forgiveness can positively impact your brain health and practical solutions and learn how to build a framework where you can thrive and ways to find passion and purpose. Cognition exercises will follow.

- It is up to you to contact each service provider to discuss costs and service needs and select a suitable company that fits your needs.
- The district organization which provided the referrals will follow up with you to check if you contacted and used one of the referrals.
- To help the Seniors Home Supports Program evaluate if it is meeting needs or if improvements could be made, districts will keep track of some basic program usage information.
