

Restrictions Exemption Program - September 20, 2021

As mandated by the Province of Alberta, effective Monday, September 20, 2021 proof of vaccination will be required of all patrons in order for the North Edmonton Seniors Association to proceed with the delivery of its programs and services.

This means that all patrons visiting the centre including members, instructors, coordinators and staff will be required to provide proof of their vaccinations on or before their scheduled start date for all activities commencing the week of September 20, 2021 and later.

How do I provide NESA with my proof of vaccination?

Please visit the front desk upon your arrival with your proof of vaccination and a team member will update your membership records. Alternatively you can provide vaccination proof via email (vaccination.proof@nesa1.ca) and our team can update your file before your next scheduled visit.

What if I am unable to provide proof of vaccination or don't feel comfortable resuming activities at NESA at this time?

If proof of vaccination *cannot* be provided, written or a printed copy of proof of a negatively privately-paid covid-19 test result from an approved Health Canada test, taken within 72 hours, must be shown to a staff member prior to any activity participation. (Please note: If a member is participating in weekly activities/programs at NESA, weekly negative-test results will be required to be shown to staff in order to be eligible to continue participating in the activities/programs).

Please be aware that results from Alberta Health Services are not eligible for consideration as proof of a negative test result.

If members wish to fully withdraw from their programs and activities because they are unable to adhere to NESA's proof of vaccination requirement or do not feel comfortable in resuming activities at this time, they can submit a request via email (refund@nesa1.ca)

www.nesa1.ca

When do I need to provide proof of my vaccination?

Vaccination proof is required *prior* to the start date of your activity or program. We *strongly encourage* you to contact us via email (vaccination.proof@nesa1.ca) with your proof of vaccination as it is the easiest and most efficient option.

What will you do with the information I am providing?

Please note that if you choose to visit NESA to show proof of your vaccination, we do *not* require a copy of this documentation, we just need to review a hard copy or electronic confirmation of it in person. Should you choose to email your vaccination proof, please note that once your vaccination status has been verified and NESA's records are updated, your email will be permanently deleted as NESA will *not* be saving, printing or storing this information, we just simply need to verify that it exists for you.

What exactly does NESA need to see to verify proof of my vaccination?

Whether sending it via email or providing proof in person, we will accept the following:

-The hardcopy or a photo of your vaccination paperwork confirming you have received one or both doses (ensure your full name is legible and present on this document);

-A screen shot of your MyHealth Alberta and/or Netcare records confirming your completed vaccinations (ensure your full name is present) Visit www.albertavaccinerecord.ca to download your Alberta Covid-19 Vaccine Record;

-The prescription paperwork and labels provided to you from your pharmacist or physician confirming your vaccinations (ensure your full name is legible and present on this document);

-Your immunization card or hard copy records (ensure your full name is legible and present on this document);

Thank you for your patience, understanding and support with these new operational requirements- if everyone does their part we are confident that we can safely navigate through these unprecedented times and maintain a safe and enjoyable recreation community for all!
