

Restrictions Exemption Program - November 15, 2021

As mandated by the Province of Alberta, starting Monday, November 15, 2021 all patrons will be required to show their proof of covid-19 vaccination as per the updated provincial digital QR record format. Please click [here](#) to access your record. (A printout of this pass or a screenshot, accompanied with personal identification will be required for entry).

This means that all patrons visiting the centre including visitors, members, instructors, coordinators and staff will be required to provide proof of their vaccinations on or before their scheduled start date for all activities, programs and special events.

How do I provide NESA with my proof of vaccination?

Please visit the front desk upon your arrival with your proof of vaccination and personal identification and a team member will update your membership records.

What exactly does NESA need to see to verify proof of my vaccination?

The hardcopy printout or a screenshot of the covid-19 vaccination record from the following website: <https://covidrecords.alberta.ca/home>

When do I need to provide proof of my vaccination?

Vaccination proof is required *prior* to the start date of your activity or program. We require all visitors and members to check in at the front desk with either a hard copy or digital screenshot of their QR covid-19 vaccination proof.

What will you do with the information I am providing?

Please note that we do *not* require a copy of this QR record, we just need to review and scan a hard copy or electronic version of it in person. Please note NESA will *not* be copying or storing this vaccination information, we just simply need to verify that an active QR code exists for you.

Restrictions Exemption Program - November 15, 2021 (Cont'd)

What if I am unable to provide proof of vaccination or don't feel comfortable resuming activities at NESA at this time?

If proof of vaccination *cannot* be provided, written or a printed copy of proof of a negatively privately-paid covid-19 test result from an approved Health Canada test, taken within 72 hours, must be shown to a staff member prior to any activity participation. (Please note: If a member is participating in weekly activities/programs at NESA, weekly negative-test results will be required to be shown to staff in order to be eligible to continue participating in the activities/programs).

Please be aware that results from Alberta Health Services are not eligible for consideration as proof of a negative test result.

If members wish to fully withdraw from their programs and activities because they are unable to adhere to NESA's proof of vaccination requirement or do not feel comfortable in resuming activities at this time, they can submit a request via email (refund@nesa1.ca)

Thank you for your patience, understanding and support with these new operational requirements- if everyone does their part we are confident that we can safely navigate through these unprecedented times and maintain a safe and enjoyable recreation community for all!
