The History Behind the Landry Leisure Pass

The Landry Leisure Pass (LLP) is an income based subsidy program created to eliminate financial barriers, fostering social engagement and inclusion by allowing members to enjoy NESAs outstanding programs and activities throughout the year. It was created after a generous donation from the estate of Therese Landry's to honour her passion for community and connection. It provides eligible members with \$300 each year to enjoy NESAs activities, supporting social inclusion and the opportunity to discover new experiences.

The story behind it is just as inspiring as its purpose.

Therese Landry's journey took her from life as a nun to a fulfilling career as a high school teacher with Edmonton Catholic Schools. In retirement, she found a vibrant community at NESAs, exploring her creativity through oil painting, singing with the Choralaires, and taking part in a range of activities. Her wish was that others could find the same joy and connection. Through a generous gift from her estate, the Landry Leisure Pass was born.
